

Russia Provisionally Accepts Allied Terms; Optimism Felt At Genoa

GERMANY AGREES TO ULTIMATUM ISSUED BY ALLIES

Not Participate in Russian Discussions; Russo-German Treaty to Stand

Yes Turn to U.S.

Financial Aid for Russia Impossible Under Our Participation, Is View

(By the Associated Press)

Genoa, April 21. — The economic conference today made a great stride forward. The elimination of the Russo-German treaty from the controversy, and Soviet Russia's provisional acceptance of the Allied conditions concerning reparation debts and confiscated property of foreigners, produced definite hope that the greatest European statesmen ever assembled will accomplish something real and tangible for the reconstruction of Europe, including Russia.

The demands of the powers which have been accepted include a claim by Russia of her own railways, based upon military intervention; recognition of war debts to the government, with the understanding that they will be considerably scaled down; recognition of debts and financial obligations due to foreign nationals, and the right of foreigners to have confiscated property returned to them or to be given proper compensation for it.

Soviet Note Conciliatory.

The conciliatory nature of the Soviet government contributed to the optimism that the Bolsheviks earnestly seek an arrangement with the powers which Soviet Russia will be permitted to enter into the control of national affairs. The clear and brief demands of the Allies which afforded a concrete basis for discussion are compared here by observers to the concrete American proposals for naval limitation which were introduced at the outset of the Washington conference and which gave the delegates to the Washington gathering an opportunity to simultaneously discuss on something tangible and constructive.

The insistence of the Soviet on foreign financial aid as a necessary condition to Russia's salvation served to turn all eyes toward the United States. It seems to be recognized that effective aid for Russia is impossible without the participation of American capital. This conviction is so pronounced that the Allied representatives are hinting that they would like to see Richard Washburn Child, the American ambassador to Italy, attend the discussions on Russian affairs.

"America Must Not Forget."

The sentiment regarding American financial support was summed up today by former President Motta of Switzerland, who said that without assistance from the United States it would be very difficult for Europe to win out.

"We do not believe that America will forget the ties that bind her to Europe," he declared, "with today's development here, prominence was given press dispatches from the United States asserting that public opinion there did not expect any assistance would be given Europe until she put her house in order and really got to work, settled the problem of German reparations, and reduced her armaments. Signor Facta, chairman of the conference, tonight officially voiced hope for the success of the conference which the Soviet reply of today is considered to justify."

A committee of seven experts, representing Great Britain, France, Italy, Belgium, Japan, Holland and Czechoslovakia, will meet the Soviet experts tomorrow to inaugurate a practical discussion of the entire situation. Rumania was assigned a place on the board of experts, but withdrew in favor of Czechoslovakia.

GERMAN REPLY TO ALLIED NOTE ACCEPTS CONDITION

Genoa, April 21. — The German reply to the Allied ultimatum accepts the condition that the German delegates be barred from participation in the further discussions of the Russian question by the German conference, the Russo-German treaty signed at Rapallo being allowed to stand.

The German note begins by acknowledging "with painful surprise" the protest received, which is considered undeserved. The note then repeats what Dr. Rathenau, German foreign minister, has stated on several

Leaders of Russian Delegates

Tchitcherine, left, and Litvinov, his chief aide in conference in their apartment at the Hotel Esplanade, Genoa, just before Tchitcherine signed the separate treaty with Germany.

al occasions—that negotiations for the conclusion of the Russo-German treaty had been begun long ago, were known to have been in progress by all the European governments and lately been suspended out of deference to the Genoa conference.

But the exclusion of Germany from the negotiations held by the allies with the Russians at the villa De Alberta gave to the German delegation the impression the allies were trying to conclude arrangements with "the Soviet government without German participation, perhaps to Germany's detriment."

Feared Allied Treaty.

At a certain moment, perhaps through misunderstanding, the German delegation received the impression that the Allies were about to conclude an agreement with the Russians, therefore the Russo-German negotiations were resumed, and resulted in the signing of the treaty at Rapallo on Easter Sunday.

The German delegation believes this treaty does not violate the spirit of the conference and indeed contributes to its supreme aim—the pacification of the world and the reconstruction of Europe.

The note admits that after the conclusion of this treaty the German delegation has no reason to participate in the work of the first commission dealing with Russian affairs and says it willingly will participate in the other work of the same commission dealing with European and German interests.

The text of the final clause in the German note reads as follows: "With regard to the further treat-

WOMEN CONVINCED U.S. MUST LEAD WAY

Pan-American Conference Discusses Industrial, Social and Moral Uplift

Baltimore, Md., April 21. — Uplift, industrial, social and moral, was the keynote of both sessions of the Pan-American conference today. Women from many parts of the world presented their views of the status of women in relation to these questions, and almost without exception the speakers expressed their conviction that the United States must lead the way to social as well as industrial reform.

At the afternoon session, Mrs. Emeline Pankhurst, who arrived unexpectedly and who spoke of the social hygiene movement in Canada, was given an ovation both before and after she spoke. Mrs. Pankhurst declared the world stood urgently in need of both social and moral reform and she declared that stringent legislative action should be obtained to stop the traffic in human lives.

SENATE TARIFF DEBATE PUT OVER UNTIL MONDAY

Washington, April 21. — Officially the tariff bill was before the senate today but it received such scant attention that Republican leaders finally acquiesced in the request of the Democrats that further discussion of it be deferred until Monday. By that time, the minority expects to be ready to proceed with the general discussion of the measure.

TALKING MOVIES PERFECTED.

New York, April 21. — Talking movies "in lines" recorded on film instead of on phonograph records, have been perfected by Lee DeForest, pioneer in the wireless telephone field, he declared today upon his arrival from Germany, where he has been experimenting for six months. Mr. DeForest came in on the liner Mauretania.

He said he had perfected the talking motion picture so that the human voice was "photographed" on the film at the same time that the picture was taken. The impressions are taken electrically through the action of light on a sensitive cell, he explained.

WORKERS READY TO RETURN TO MINES

Willing to Work Under Wage Award of 1920, Union Official Says in Debate

New York, April 21. — Two methods of ending the national coal strike were proffered tonight in a debate at Hotel Astor in which leaders of both sides of the present industrial crisis participated.

Philip Murray, vice president of the United Mine Workers of America, announced the coal workers were ready to return to the mines at once if congress would apply the bituminous coal commission's wage award of 1920 to the present operations, to remain in effect until a conference of miners and operators could be arranged.

Thomas H. Watkins, president of the Pennsylvania Coal and Coke company, countered with a challenge to Mr. Murray to "put the men to work on the 1917 scale and save yourselves and the whole country a lot of trouble."

Mr. Murray charged his opponent with being the "Alexander" Howat among the coal operators of Western Virginia, asserting that Watkins had disrupted even his own organization by his inconsistent policies.

The coal operator retorted by charging that officials of the United Mine Workers of America were "deliberately inciting the workers to class hatred of capital and all it represents."

Participants in the exchange were applauded impartially by both sides, notably crossed men and women who sat around banquet tables in the hotel.

Operators Heltgate Demands

New York, April 21. — Anthracite operators, who had announced that today they would submit to the miners the terms upon which they would sign an agreement ending the strike, contented themselves with a simple reiteration of their general demand that wages come down.

Labor members of the subcommittee expressed keen disappointment over the attitude of the operators. They had been led to expect, they said, that the coal men would make known the amount of wage reduction they would demand, as opposed to the 1917 scale of the miners, so that the issue of the strike might have become clear, and a basis established for further negotiations.

200 BODIES FOUND UNDER WRECKAGE

Salvage Work in Monastir Carried On With Difficulty; Americans Come to Assistance

(By the Associated Press)

Monastir, Yugoslavia, April 21. — Salvage work in the section of the city laid waste by Tuesday's explosion is being carried on with the greatest difficulty. Lack of water is hampering the task of putting out the numerous fires, while gas fumes are hindering the soldiers and gendarmes who are searching for victims. Two hundred bodies have been recovered and there is little likelihood that any more will be recovered alive, as the cries of wounded amid the wreckage, which were heard throughout yesterday, have now died out altogether.

It still is impossible to estimate the total number of persons killed, but several hundred were wounded, many of them hopelessly. Great numbers of them have been removed to the American hospital founded by Dr. Regina Flood Keyes of Buffalo, N. Y., which, somewhat removed from the scene of the explosion, escaped with slight damage.

Relief workers from the American women's hospital at Veles arrived last night, bringing coats, blankets and medicine. H. M. Reader, Jr., of New York city, acting director of the American Relief commission in Belgrade, is hurrying to Monastir with doctors, nurses and medicines. He will take charge of the relief work.

Most of the houses of the city, flimsy affairs of wood and terra cotta, collapsed under the terrific impact of the explosion, burying their occupants in a mass of debris. The ruined area covers many square blocks. The only structures which resisted the explosions were Turkish minarets which were built of solid masonry. The American missionary school, some distance from the devastated area, escaped with a few minor damages, but the students scattered, panic stricken, thinking an earthquake had visited the city.

DEBATE FOREST MANAGEMENT

Future Forestry Policy of New York State in Process of Formation at Syracuse.

Syracuse, April 21. — Questions relating to forest management in New York state and particularly to forest problems on which recommendations have been asked by the United States Forestry Service, were discussed today by members of the New York state section of the American Forestry Association, in session here in connection with the convention of the Inter-Collegiate Association of Forestry clubs and lumberman of the United States and Canada.

Officials of the organization today declined to divulge the results of the discussions, which were being closed down, but they asserted their recommendations would be adopted as the future forestry policy of New York state.

Prof. Ralph Hoerns, head of the department of forestry at Cornell university, was elected chairman of the section for the ensuing year and O. M. Fortney, New York, secretary of the Woodlands section of the American Pulp and Paper association, was chosen secretary.

DUBLIN TIRED OF MILITARY

Nightly Compelled to Leave Beds and Crouch on Floors, in Fear of Stray Bullets

STRIKE IS CALLED

Civic Offices to Close for One Day and Action Demanded of Dail Eireann

(By the Associated Press.)

Dublin, April 21. — Lord Mayor O'Neill, at today's meeting of the corporation, secured the unanimous adoption of a resolution endorsing the manifesto of the labor party and the trades union congress, issued last night, calling for a one-day strike and demanding action by the Dail Eireann. The resolution directs that all civic offices be closed on the day of this strike, except such as are absolutely necessary.

Appealing to the people to "draw the teeth of the military," the lord mayor described how the people in Dublin nightly were compelled to leave their beds and crouch on floors and hallways in fear of stray bullets, and continued:

"I neither know, nor care, who is accountable, but such scenes would draw tears from stones. What in the name of God is it all about? Is it to bolster up the army that we got rid of the British army? Why not get rid also of the Irish army; we can dispense with them."

"Send these young men of both armies home; let them do a decent day's work before they become demoralized. Clear these bullets of the night out of the city employ—the money they cost would build houses."

"I have sufficient confidence in the citizens that we would then have peace. Let the militarists take heed. They may override individuals, but they cannot override the will of the people, which intends to crush them and which will prevail."

De Valera Speaks Sunday.

Belfast, April 21. — Events which preceded last Sunday's meeting at Sligo, at which Arthur Griffith was the chief speaker for the Free State, are being repeated at Mullingar, where Eamon DeValera will speak against the treaty Sunday. Free State troops occupy the military barracks and post office at Mullingar, while the Republicans today took over the county hall courthouse. Technical schools and other county buildings, where the bags were placed before the windows.

FINANCE COMMITTEE TO TAKE UP BONUS

Chairman McCumber Opposes Plan of Attaching Bill to Pending Tariff Measure

Washington, April 21. — Republicans of the senate finance committee will hold their first conference tomorrow on the soldier bonus bill passed last month by the house. Chairman McCumber said today there would be a general discussion of the whole subject, adding it was too early to undertake to say what form the bill would take.

OUTLOOK FOR WORLD PEACE CLEARER, GEDDES DECLARES

New York, April 21. — International problems, once as "black as thunderclouds," have disappeared, and the outlook for world peace and prosperity is clearer, Sir Auckland Geddes, British ambassador, declared tonight in a speech before the Pilgrim Society in the Plaza hotel.

"It is not uninteresting to recall," said Sir Auckland, "that when last I had the honor to address you, the topic of Anglo-American interest which I selected for reference were oil, naval shipbuilding, and Ireland. I think we may say that none of these topics, now calls for discussion as a live international issue likely to affect prejudicially the good relations of the British Empire and the United States."

ENGLAND FAIR TO U. S.—LADY ASTOR

Many in This Country Attack Britain Bitterly and Unfairly, First Woman M. P. Declares

New York, April 21. — Lord and Lady Astor went to the theatre tonight for their first amusement since their arrival from England on Wednesday. They will depart tomorrow for Baltimore, where Lady Astor, first woman member of Parliament, is to address the Pan-American Conference of Women.

This was another busy day for the viscountess. Most of the time she remained indoors at the home of her sister, Mrs. Charles James Gibson, who was the artist's model for the famous "Gibson Girl." There she received reporters, photographers and social callers, answering many letters also, and then went for a walk.

In her interview, Lady Astor made clear her opinion that huns should come first with a woman and then politics, which she believed all of her sex should enter at least to the extent of voting intelligently. She said she considered teaching children the most important thing in the world.

Defending prohibition, Lady Astor said: "Let the rich drink if they want to. It will hurt no one but themselves."

She thought liquor dulled the brain, and for that reason disliked it. "If you think the people of America want drink back put it to a vote," she said, "but you'll never get it."

"Do you mean liquor or the vote?" "The vote," she replied.

She contended that England was fair toward America while many in this country attacked Britain bitterly and unfairly.

"Every time I see a Hearst paper, I find a dig at England," she said. "Why, if any one in the house of commons makes a slur upon the United States, he is howled down, but in the senate when unfair statements are flung at England there seems to be no one to deny them."

Lady Astor laughed when asked if there was truth in the spiritualism was "sweeping England," as Sir Arthur Conan Doyle has asserted.

"I don't think spiritualism has got anything to do with religion," she said. "Let Sir Arthur talk spiritualism but leave religion alone. Spiritualism is not sweeping England. They are too steady a people for that."

1,700 GALLONS OF GASOLINE EXPLODES

Two Die of Burns, Thirty Injured, in Oil Station Blast in California

Downey, Calif., April 21. — Edward Vandergift, a retired merchant, died tonight from burns received in an oil station fire here today, the second death due to the blaze. W. L. Henry, grain merchant, died about two hours before Vandergift.

The list of seriously injured was increased to five by reports from hospitals. Thirty were slightly injured.

Seventeen hundred gallons of gasoline blew up after the fire started, either from crossed electric wires or from a blow torch which was being used by a workman near the building.

Roy Tompkins, a storekeeper, Lester Witherspoon, school boy, and Walter Pulley, druggist, were so badly burned that physicians said their chances for recovery were not good.

The fire started on a truck standing by the station and quickly spread to the station. School boys ran a hose to the roof of a shed nearby and began to spray the flames. As they were doing this, an underground tank at the station blew up, scattering burning gasoline over the boys and bystanders. Shortly after, the flames reached a tank truck standing near the station and the gasoline in this also exploded, injuring many more.

SAFEGUARD SMALL INTERESTS.

Washington, April 21. — Modification of the administration merchant marine bill so that it will specifically safeguard the interests of small ports and shipping companies was advocated at today's session of the Joint congressional hearings on the measure by Matthew Hale of Greenville, S. C., president of the South Atlantic States association.

Lack of Pioneer Spirit Blamed For Depression

New York, April 21. — The typical pioneer spirit which has for many years been a feature of American industry is missing now and its disappearance has retarded the return of business to "normalcy," Otto H. Kahn, banker, declared before the Transportation club today.

"The very buoyancy of the stock exchange," he said, "with the unprecedented absorption of bonds, is in part caused by the fact that the typical American spirit of bold, pioneering enterprise is not at work on its former scale and that funds are flowing into speculation and investment rather than into industrial activity."

"Business has been getting better recently, but there is still a great deal of unemployment, discontent, restlessness and maladjustment. Normalcy has not yet returned."

Mr. Kahn listed among the "big elements" which have affected American political and economical development

COURTS UNFAIR, GOMPERS SAYS

Still Dominated by Ancient Precept of Master and Servant, He Declares

ON WITNESS STAND

Veteran Labor Leader Appears Before Lockwood Committee at Untermyer's Request

New York, April 21. — Testifying before the Lockwood investigating committee here today, Samuel Gompers, president of the American Federation of Labor, expressed a conviction that the courts should not be vested with power to resolve labor disputes which result in harm to union men or to employers, "because the courts are still dominated by the ancient precept of master and servant and constantly exercise their power to weaken organized labor."

Mr. Gompers appeared as a witness at the invitation of Samuel Untermyer, at the opening session of the committee's investigation of the \$30,000,000 Hell Gate power house project.

Prior to the labor leader's testimony, it had been developed by Mr. Untermyer that work on the power house had been suspended for six months as the result of a controversy between organized plumbers and steamfitters over which craft should perform certain parts of the contract. Contractors had been made to suffer, he declared, and the public has sustained "irreparable injury" because of the delay in the project.

Two witnesses, a journeyman plumber and a plumber's helper, preceded Mr. Gompers on the stand with testimony that they had been refused admittance to the New York local because "the books were closed to everyone but brothers and sons of union men, and old members."

Courts as Last Resort.

From questions on limitation of union membership to expulsion of recalcitrant workers, Mr. Untermyer led up to the subject of the courts as last resort for workers unjustly deprived of membership in a union.

"Do you believe that there should be a right of review vested in courts to prevent unjust expulsion of union members?" Mr. Untermyer asked.

"I'd save labor from the courts," Mr. Gompers replied. "I have no faith in courts. In deciding cases between you and me, as individuals, they are fair and impartial. But in cases which hinge upon the relations of employer and worker, the courts are most partial and unfair. They always favor capital."

"The tendency of the last decade has been to grant more power to the courts, and where the power isn't granted, for the courts to take it."

Again he said, "I'd rather allow expulsion to continue than to submit labor disputes to the courts. If the courts were given jurisdiction by law over the internal affairs of a labor union, they would not be unlikely to extend their jurisdiction to include all affairs of the organization."

When Mr. Untermyer interrupted the testimony to inquire upon what Mr. Gompers based "this revolutionary doctrine," the labor leader retorted:

"I refuse to permit you to stigmatize my language as revolutionary. I am the mildest-mannered man that ever cut a throat or scuttled a ship."

FREE FOR LACK OF EVIDENCE WOMAN HELD FOR MURDER

Buffalo, April 21. — Mrs. Edna Luczak, held for the grand jury of Genesee county on a charge of murder, first degree, was ordered released by Justice Marcus in supreme court today. The evidence against the woman was insufficient to warrant the charge, Justice Marcus held.

Mrs. Luczak was charged with complicity in the murder of Stanley Luczak, her brother-in-law, who was shot dead by two men on March 9. It was alleged that she had conspired with John Sobieski, now in the Genesee county jail on a charge of murder, to kill her husband in that the assassin had killed his brother by mistake.

BERLIN PAPERS IN ACCORD.

Berlin, April 21. — The Berlin newspapers are in complete accord with the government's reply to the Allied rebuke for the Russo-German treaty. They praise Chancellor Wirth and Foreign Minister Rathenau for refusing to abrogate the pact.

RECENTLY, THE PEACE TREATIES, TAXATION AND THE APPLICATION OF PROHIBITION.

The peace treaties, he said, have given the American people a wrong idea of Europe. He declared that the pact, which he called unparalleled in history in their "futility, wrong-headedness and harmful effects," were the cause of Europe's inability to settle down.

"I am convinced," he continued, "that unless the glaring errors of our taxation policy are remedied, America will fall in attaining that degree of prosperity which is open to a nation in whose domain are unbounding resources which, in the past, have been coupled with racial qualities that have found expression in zest for work, daring enterprise and broad-gauged achievement."

"Whatever we may think of prohibition," he concluded, "the particular fanatical application of that principle in the Volstead act goes much too far and is morally a breeder of crime."

STOCK MARKET DULL, SCOPE RESTRICTED

Rails Give Good Account of Themselves; Several Obscure Issues Score High Records

New York, April 21.—The foremost noteworthy feature of today's stock market was its dullness and restricted scope, as compared with previous days of the week, sales barely exceeding 1,200,000 shares.

There were several additions to the progressively long list of new high records, but these were registered for the most part by relatively obscure issues of the more speculative variety.

Rails, as a whole, gave a good account of themselves, the strength of that group again embracing coalters, as well as Pacifics, the southwestern division, and New Haven and Ann Arbor preferred.

Despite repeated assurances that the coal strike had made no material impression upon industrial activity, advices from Pittsburgh and other steel and iron centers reported further suspension of operations and closing down of non-union mines.

From other western points came intimations that the automobile trade and allied industries might also

and it necessary to slow down from the high rate of production because of the diminishing supplies of fuel. That leading industrial interests are optimistic regarding future conditions, however, was indicated by the announcement that the United States Steel corporation had completed plans for the construction of a large tube mill at Gary.

The first and final hours were the only active periods in the market, later dealings being enlivened by heavy buying of Studebaker and Gulf States steel, these issues making net gains of 2 7/8 and 2 points, respectively.

Mexican Petroleum, Pullman, Bald, win, Barnard "A," Mack trucks, Hupp motor, Coca-Cola, Postum and Manhattan Electric also were strong.

The money market again made its contribution to the higher trend of quoted values, call loans opening and renewing into next week at 3 1/2 per cent, that quotation ruling throughout the trading session.

Public utility issues were the foremost features of today's active and broad bond market, replacing in interest government offerings and popular rails.

Liberty's were inclined to ease and the prominent international war flotations were irregular.

SCHENEVUS MAN NEAR DEATH

John Germond Suffers Fractured Skull and Jaw When Hit by Bolt of Shingle Saw — Larucci's Barber Shop Robbed of \$50.

Schenevus, April 21. — John Germond is hovering between life and death at his home on South Hill, as the result of an accident he suffered Thursday morning about 11 o'clock. While cutting shingles with a shingle saw at the John Uter place, the bolt flew out and hit him a terrible blow in the face, fracturing his upper jaw twice and causing a fracture at the base of the skull. The unfortunate man was removed to his home and Dr. E. C. Windsor of this village summoned. His critical condition precluded his being taken to the Oneonta hospital for treatment.

Dr. Windsor said this evening that it would be two days before he could state what Mr. Germond's chances were. The patient was resting comfortably, but the crisis has not yet been reached. Needless to say, his condition is very grave.

Mr. Germond moved to Schenevus from Susquehanna, Pa., four and a half years ago. He has a wife, who was Florence Ackley, and three young children. The many friends of the family will hope for a turn for the better in his condition.

House Cleaning
Time is Here

We are cleaning house with our stock of used cars; hence you can find bargains that will astonish you. Stock includes Studebakers, Buicks, Dodges, Overlands, Maxwells, Nashes, Oldsmobiles, Chevrolets, Cadillacs, etc.

Below we list a few of our best bargains:

Oldsmobile Roadster, nearly new	\$1075.00
Chevrolet F. B. Touring, absolutely new	1050.00
Nash Touring	775.00
Ford Sedan	425.00
Studebaker Touring	425.00
Chevrolet Touring	175.00

If you don't see what you want in this list, come in and look over our stock. If we do not happen to have the car you want, will get it on very short notice.

Interesting paper on the Radio Telephone. Dainty refreshments were served by the hostess with the committee consisting of Mrs. Feagles, Mrs. Omans and Mrs. Gilchrist assisting.

Personals.

Mr. and Mrs. Burrell Perry and daughter, Alberta, have motored to Herkimer to visit Mr. and Mrs. Webster Chase and family for the week-end. — Miss Leona Swackhamer of the Cooperstown High school faculty is visiting Judge and Mrs. Flint at their home at Freeport, Long Island. Miss Swackhamer will also visit Miss Katherine Kobe in New York city. — Dr. E. C. Windsor went to Mt. Upton Friday to bring home Mrs. Windsor and infant daughter, Shirley, who have been visiting Mr. and Mrs. C. D. Cornell for the past week. — Mr. and Mrs. L. A. Duren entertained Mrs. Flint of South New Berlin and Mrs. Langdon of Worcester, Thursday. — Father Edward J. Kelly has been spending a few days in Glens Falls. — Miss Mary Friery returned to Brookline Friday to resume her school duties. — Mrs. Abbie Kiley and young son, John, who have been spending the winter at the home of Miss Anne Friery, have gone to Binghamton to live. — Miss Olive Robbins of East Worcester is visiting Mr. and Mrs. William R. Robbins. — Nathaniel Feagles returns to Cook academy, Montour Falls, Monday. — Mrs. Henry Apian and daughter of Hartwick are visiting Mrs. Alice Bennett. — Miss Imogene Ackley of Mt. Vision will spend the week-end with her sister and brother-in-law, Mr. and Mrs. Irish.

Methodist Episcopal Church.

Rev. L. A. Duren, pastor, Sunday services as follows: 10:30 a. m.—Morning worship. Sermon by the pastor; subject, "God Speaking With a Strong Hand." 11:45 a. m.—Sunday school. 6:30 p. m.—Epworth league devotional meeting. Miss Helen Gilchrist, leader. 7:30 p. m.—Evening worship. Subject of the sermon: "Fogs."

At the Baptist Church.

Rev. E. C. Dorkaw of Colgate university will occupy the pulpit at the Baptist church at both the morning and evening services Sunday. Rev. N. R. Feagles will preach in the Baptist church at Preston Hollow, leaving here Saturday and returning Monday evening.

A NEWS BUDGET FROM OTEGO

Church Services of Sunday with Many Other Items of Interest.

Otego, April 21.—The Junior league will meet at the Methodist Episcopal church Saturday afternoon at 2 o'clock. — Mrs. K. E. Rowley will occupy the pulpit in the Methodist church Sunday morning at 10:30, speaking in the interests of the Anti-Saloon league. — Rev. M. S. Godshall, D. D., the new district superintendent, will preach at the evening service at 7:30. Special music will be rendered at both services.

Service at Immanuel Church. There will be service in Immanuel church Sunday evening at 7:30.

Bake Sale Saturday. Remember the bake sale to be held Saturday afternoon at 2:30 o'clock at Mr. Vanderwerker's office for the benefit of the Ladies' guild of Immanuel church.

Otego Personals.

Miss Gladys Stanton, has been spending the past week in Syracuse, visiting her sister, Miss Ruth Stanton, who is training at Colgate. — Mrs. Baker and baby of New York city have arrived in town to spend the summer. They are boarding the home of Mrs. Abbie Lewis. — Miss Edith Gifford of Jefferson spent her Easter vacation with her parents, Mr. and Mrs. E. E. Gifford, in this village. — Miss Miriam Blakely of Windsor has been spending the past week at the home of Miss Leona Stenson and calling on friends in town. — Mr. and Mrs. Lee Berthoff are spending the week in Binghamton. — Miss Pauline Fuller left Monday for Syracuse to spend a few days at the home of Miss Elizabeth Towne, a former teacher of the High school here. — Mrs. Sarah Aldrich of Binghamton has been spending her Easter vacation at the home of her sister, Mrs. C. C. Voltz. Mrs. Aldrich has moved her household furnishings to this village and will soon take possession of part of the dwelling known as the Carey place. — Miss Marian Scholl, who has a position as teacher at Mechanicsville, spent her vacation at the home of her father, Rev. H. T. Scholl, in this village. — Miss Mae Harris returned to Cedarhurst Monday after spending a week at the home of her parents, Mr. and Mrs. J. C. Harris. — Mrs. Grace Fancher returned to Davenport Monday, where she has a position as teacher, after being detained a week at her home in this village by the illness of her son, Carleton, who has been suffering from an attack of influenza. He is improving and his grandmother, Mrs. Emma Place, is caring for him. — Mr. Dow, who recently purchased Geo. Marx's residence on Follett street, has moved his family here and taken possession. — C. H. Broadfoot and W. D. Vanderwerker are having their dwellings wired for electric lights.

A Fortunate Runaway.

Neil Lasher's team ran away Thursday morning. They started in front of J. K. Hawkins grocery store, ran back of the post office and across Morgan Place's yard and finally the tongue of the wagon hit against a telephone pole at the corner of Hunt and Waring's store. This stopped the racing team. No damage was done.

LATEST MT. VISION NEWS.

Services and Topics Sunday at Methodist Church. — Mt. Vision, April 21. — The pastor of the Methodist Episcopal church will preach Sunday morning on "The More Abundant Life." In the evening his theme will be "The Blessings of Goodness."

With Dr. Hensey.

Rev. D. E. Myers spent Monday, Tuesday and Wednesday with Rev. Dr. James A. Hensey in Oneonta.

Visitors From Syracuse.

Mr. and Mrs. Harry Rickard and children of Syracuse visited Mrs. Rickard's parents, Mr. and Mrs. Charles Ackley, on Wednesday, spending the night there.

Other Mt. Vision Notes.

Mrs. Lina Shove went Tuesday to Morris to visit her mother, Mrs. Lucy Pickens. — Mrs. Becker and little son of Cooperstown and Miss Marian Green of Oneonta visited their aunt, Mrs. I. J. Keyes, Wednesday. Their cousin, Miss Doris Harrison, of New York Mills, accompanied them. — Mr. and Mrs. John Peet and three chil-

RADIO EXPLAINED

By E. H. LEWIS
INSTRUCTOR NEW YORK Y.M.C.A. RADIO SCHOOL

TUNING.

If a pendulum is struck a light blow at the end of a swing in one given direction the height of the swings in each direction are maximum for the strength of the applied force and the air friction resistance present. It is the length of the cord which supports the weight that determines the natural frequency of the swings (the number of times it makes a complete swing each second). When the force is applied to the weight in this regular manner it is applied once for each swing, and the frequency of application equals the frequency of swings. The two frequencies being equal, the force is applied in step or "in tune" with the natural frequency of the pendulum system. Altering the length of the supporting cord alters the natural frequency of swing, and by adjusting it so that this natural frequency is the same as that of the applied force is called "tuning" the system to resonance.

The electrical length of an electrical circuit is varied by altering its capacity and inductance—that is, by altering the capacity of a condenser and the inductance of a coil, for example. The natural frequency of alternating current which will be created in such a circuit when struck by electrical blow then depends upon its capacity and inductance. If the electrical blows are struck at a certain rate or frequency, the circuit may be so adjusted as to have a natural frequency in tune with the applied force. The electrical force applied is, of course, the electromotive force furnished

by a generator, for example. When this condition of resonance prevails, the current alternating in the circuit will be maximum for the strength of applied electromotive force and actual ohmic resistance. There will be no effective resistance, due to reactance, because when resonance occurs the capacitive reactance equals the effect of the inductive reactance. The two reactances having opposite effects in a circuit the net reactance is then zero.

In any circuit, therefore, if an alternating electromotive force is applied, the resulting current will be maximum, when the natural frequency of the circuit is the same as the frequency of the alternating E. M. F. That is, when the two are in resonance. The actual value of the current then depends only upon actual resistance and applied E. M. F., and reactance or effective resistance is nil. In order to obtain this condition it is only necessary to alter the capacity of the condenser or the inductance of the coil, bearing in mind that the natural circuit frequency increases with a decrease of either or both, and vice versa. Inductive reactance increases with an increase of inductance, and vice versa, while capacitive reactance decreases with an increase of capacity, and vice versa. As has been said, when the capacity and inductance are so adjusted that the natural frequency of the circuit is in resonance with the frequency of applied E. M. F., these reactances are equal and their effects cancel each other.

TUNING ONE CIRCUIT TO ANOTHER.

If there is an alternating current of a given frequency flowing in one circuit and another circuit containing capacity and inductance is placed nearby, there will be alternating current created in the second circuit. As a matter of fact, this current in the secondary circuit will be composed of two currents of two frequencies. One frequency is that of the alternating current flowing in the primary circuit, while the other is the natural frequency of the secondary circuit. If these two frequencies do not coincide the secondary circuit is out of resonance or out of tune with the primary, and the two currents add and subtract to produce a current which is not as great as it might be. If, by adjusting the natural frequency of the secondary circuit, it coincides with that of the primary current the two circuits are put in tune, the secondary current will be a maximum. Maximum current flows in a secondary circuit when it is in resonance with the primary. This is because the two currents are of the same frequency in the secondary circuit and always add together.

The above considerations hold particularly when the alternating current in the primary circuit gradually dies out or is "damped." If it does not die out, but is continuous in its alterna-

tions, very little if any current will flow in a secondary circuit unless its natural frequency is the same as the current in the primary. There is, then, some advantage in having continuous alternations of current in the primary circuit, if it is desired to have a critical resonance adjustment in the secondary.

In any case, when it is desired to tune one circuit to another it is only necessary to adjust the capacity and inductance (condenser and coil of wire) of the secondary circuit until its total reactance is zero for the frequency of current flowing in the primary circuit. The natural frequency of the secondary circuit is then coincident with the frequency of the alternating current in the primary. An increase of capacity or inductance or both causes a decrease of natural frequency and vice versa. Tuning is, then, merely a matter of adjusting the capacity of a condenser and the inductance of a coil of wire. Variable air condensers are suitable for capacity variations in receiving, and coils of wire with taps are suitable for inductance variations. The capacity of a variable air condenser increases with the area of the interleaving plates opposite each other. The inductance of a coil increases with the number of turns tapped into the circuit.

A Herald-Sun Feature.

dren of West Warren, Pa., came on Wednesday to visit her mother, Mrs. Ulissa Gardner, and sister, Mrs. Arthur Hoese, his brothers, Dean and Carleton, and sister, Mrs. Oscar Strain, and other relatives. Mr. Peet made the trip with an auto. — A pair of rubber and a neck scarf have been left at the Baptist church. — Mr. and Mrs. George Green of Davenport Center were at the home of her sister, Mrs. I. J. Keyes, Thursday night.

MARYLAND NEWS

Maryland, April 21.—Services will be held in the Lutheran church next Sunday morning at 9 o'clock. Rev. Philip Luther of Oneonta will preach. — Mrs. Grace Sawyer has sold her farm to Arthur Butts of Oneonta. — E. J. Ellison and family motored to Maryland Saturday and stayed at B. Maryland Saturday, returning Sunday accompanied by C. B. Salisbury. Aldren Ellison remained for an all summer stay on the farm. — Charles Butts of Norwich, spent Easter at the home of his parents, Mr. and Mrs. Harry Butts. — Mrs. L. G. Southworth and son, Corliss, were calling on friends at Schuyler Lake Sunday. — Allet Tift of Binghamton is the guest of her parents Mr. and Mrs. John Tait.

AT HARTWICK SEMINARY

Dramatic Club will Present Comedy Drama of "Oak Farm" April 28.

"NOW I AM WELL
'AND STRONG'"

If You Cannot Truthfully Say This
of Yourself, Take Gude's
Pepto-Mangan

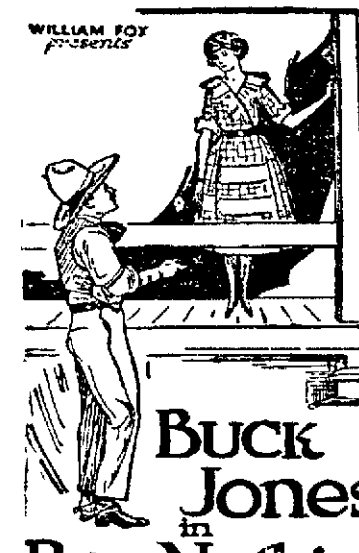

If you are not as strong and healthy as you used to be, what are you doing about it? Are you going to let yourself run down in health and be subject to headaches, indigestion, nervousness, and all that long train of ailments that cause so much pain and misery and unhappiness? Don't do it. Start now to take Gude's Pepto-Mangan with your meals and it will build you up to good health again. It contains a form of iron that gets into the blood easily and gives you strength and greater vitality and a good color. And you will sleep well, be able your nerves won't bother you. Then you can say "I feel great" and mean every word. It's the best thing you can depend upon to help you back to health. Sold in both liquid and tablet form by druggists everywhere, but it will not do you any good if you let it stay on the druggist's shelf. Advt.

Return of Our Old Friend, "BUCK JONES," in
Latest and Snappiest Photo-Production

The story of a courageous Englishwoman and a fighting American ranchman.

When a ranchman shows a tenderfoot how to run a ranch and then marries the tenderfoot's sister.

Buck Jones found his part in this stirring drama more to his liking than any he had portrayed for a long time. As a result he threw himself into his work heart and soul. And when Buck does that he has scored a triumph before the picture is released.

LOCAL MENTION.

—There will be a union church service at the Main Street Baptist church tomorrow evening. Rev. Dr. B. M. Johns of the First Methodist church will preach.

—Another rousing success was the verdict of all who attended the dance held in Municipal hall last evening by the United Commercial Travelers. Good music—big crowd—fine time.

—Members of Oneonta lodge, F. & A. M., who intended to go to Utica today to be present at the dedication of the Memorial hospital at the Masonic Home are asked to meet at the lodge room by 9:30 this morning.

—Prof. C. A. Kallgren, of the theological department of Colgate university, will occupy the pulpit of the First Presbyterian church tomorrow morning. Prof. Kallgren preached from the same pulpit on March 26 and members of the congregation will welcome his return.

THE WEST END PAVEMENT

Bad Weather Has Hindered Work on Lower Chestnut Street Macadam Traffic Soon to Be Diverted into Detour.

The unfavorable weather conditions which have prevailed during the past week have hindered work to a considerable extent on the Lower Chestnut street macadam pavement, the hard rains putting the road in such condition that work has been made almost impossible at times. Autos were allowed to use the road yesterday but it is expected that traffic will be turned into the detour today if it is in fit condition. For a time at least the main road will be opened to motorists at night but after construction has progressed to a certain stage it will be necessary to close the road altogether and to throw all traffic over the detour.

Considerable work has been done on the detour with the tractor recently purchased by the city but as the streets comprising it were never intended for heavy traffic it has been found difficult to keep it in good shape. City officials realize that conditions are unsatisfactory there but trust that motorists will bear with them until the macadam pavement is finished. Assurance is given that the latter will be pushed to completion as rapidly as possible.

CHILDREN MUST ATTEND SCHOOL

Away on Visit No Valid Excuse for Absence from School.

City school authorities are giving attention just now to parents who take school children away for visits or pleasure excursions and neglect to arrange that they shall return and resume school duties at the close of the vacation period. Since Easter vacation there are several families which have followed this course whose children are still absent from school, to the detriment of school work and the progress of pupils.

The Star has been requested to call the attention of parents to the fact that such a course is a violation of the school law and that parents are liable to be called into court to answer for this neglect and to remind all parents that the law is to be enforced in the future and that absence upon a visit is no valid excuse for the absence from school of children of school age.

Starting Photoplay of Life.

The man was dead. The shiftless, trying husband of her girlhood dreams had passed away. It was just another trial for the little mother, who was called upon to bear the burden of all the family griefs and misfortunes. It is all told in "Over the Hill," the starting photoplay of life in an average rural family. Will Carleton wrote the story with his poet's pen, and William Fox has made it into a superb film called "Over the Hill," which will open Monday at the Strand for a four-day run.

Meetings Sunday.

Regular meeting of Musicians' union Sunday afternoon at 4 o'clock at Trade and Labor hall.

Rehearsal of Keeton's band Sunday evening at 8:30 at Municipal hall.

Music at Lutheran Church.

The Easter musical program will be repeated at the morning hour of worship instead of at the evening service as previously announced.

VAN WIE SECURES CHEVROLET ALPHA DELTAS OF THE STATE

Receives First Shipment Yesterday and Had Three of Four Cars Sold Before Arrival — Popular Priced Sedan Created Sensation at Motor Car Show in New York City.

Fred N. VanWie, who is now authorized Chevrolet dealer in Oneonta and vicinity, received yesterday his first shipment of this popular model and the fact that three of the four cars had been sold even before the purchaser had seen them speaks volumes for the reputation that the car enjoys.

Coincident with announcement of greatly increased production was a sharp reduction in price that puts them in a class by themselves. The touring car which formerly sold at \$225 is now being delivered at \$195, while the four-door sedan with cord tires and full equipment and the four-door coupe which sold last year at \$1,500 are now delivered to customers here at \$1,255. Similar sharp reductions in prices of other models are noticed in the page advertisement of Mr. VanWie in this issue.

Mr. VanWie has, in anticipation of the demand for Chevrolets, reorganized his selling force and plans to give these cars as good a service as possible but to give service. He has engaged E. J. Weber, formerly connected with the local Ford agency, as salesman who will be ready at all times to show Chevrolets to all contemplating a purchase of a car. He has also engaged Harold C. Ferris, a well-known Utica boy who has had two years of successful experience with the Travelers Insurance company at Albany who will be in charge of the salesroom, store and accounts. Miss Edna Burdick is the new bookkeeper and all will be found in readiness at all times to receive and to give prompt and courteous attention to customers of the store.

Mr. VanWie has placed a large contract for Chevrolet cars of all the most sought after models and expects a second carload shipment within a short time.

Among the models which he will feature and for which he anticipates a marked demand are the new light delivery truck with express body and canopy top which is sold at \$595 delivered, the P. B. touring type at \$1,075 delivered and the P. B. coupe and sedan, each of which sells for \$1,575 P. B. factory.

One of these enclosed cars received yesterday was sold before it arrived to Lester A. Hopkins, who has driven a Chevrolet for the past four years and has found it meeting his every wish in the shape of an easy riding, serviceable car with speed and power on the hills and giving the maximum of mileage on tires and gasoline consumption.

BRIDWELL WARMING UP

Oneonta Baseball Team in Training With Michigan League Team—Work on Athletic Field Progressing Slowly.

Manager Al Bridwell is warming up. Oneonta fans need have no fear that the pituit of the Oneonta ball team will be in "stale" condition when he arrives here in four weeks to take over the reins. The early season practice which will put the local nine in shape for the heavy card of diamond conflicts will be led by a leader who has one jump the better on his boys.

Al is training with the Lansing team of the Michigan Central league at their spring quarters in Port Huron, Ohio, according to word received yesterday by President P. H. Marx of the Athletic association. He has been holding down his familiar station at the second terminal with the Lansing players, in order to get his baseball legs and arms in readiness for the season's work. He promises the Oneonta fans that he never began a season and his practicing at Port Huron evidences that he is fulfilling his promise for this year.

Things at the Athletic field are moving slowly. Rain, snow, and the accompanying mixture of mud, haven't worked well with the contractor's plans in erecting the new fence and getting the Athletic field diamond in first class condition for the season. But Oneonta fans need have no fear, as President Marx can be seen chugging over to the pasture with his horse, Henry, every day, and when the weather permits any work to be done, "Doc" can be relied upon to see that the work is done without delay.

Two Kinds of People.

One kind do as little as they can get all they can and spend all they can. They chatter like human toll Parrots, when they try to get and get, when they try to save and get. Yes, and if they are good church people, the human toll Parrots call them hypocrites. Say, I'm in their so called tight waist class and I'm darn proud of it. In twelve days, I often loan over fifty thousand dollars, on easy terms, for the getting of homes and farms and thousands of dollars more are urgently needed, in order to correct the housing problem. If the human toll Parrots would use their brains and go to No. 54 Chestnut street and take out some of my shares or a savings book (I'm not asking them to give) but simply to place their money in the safest security known and have it safely rolled, at compound interest, up to several thousand dollars, for each of them and thus provide several million dollars for the getting of more homes and farms, they'd get some common sense into their foolish heads. Help me wake 'em up. I'm the safe and sane Oneonta Building and Loan association. Advt. 11.

MISS PEARLESS & CO.

Cast of Characters.
Margaret Henley—Hostess, and her guests.
Miss Uphenia Addison—Chaperon.
Miss Sarah Jane Lovejoy—Of the Lost Nation, "near Utica village."
Katie O'Connor—"Just Lizzie"—The Ghost.
The Misses Alms and Alibi—Who have no noses.
Do you not think that this play sounds interesting from the list of characters given above. It is coming to Oneonta next Tuesday and Wednesday evenings, April 25 and 26. A full and further details of this play in Monday's issue of The Star you certainly will reserve one of these nights to see this splendid production. Advt. 11.

SUFFERS LOSS OF MEMORY

Tracy Munson, D. & H. Trainman, Cannot Recall How He Left His Train, Got to Central Bridge, and Spent Wednesday Night There.

His mind a blank so far as remembering what happened to him between early Wednesday evening and soon after noon yesterday is concerned, Tracy Munson, a D. & H. trainman residing at 18 High street, is totally unable to state how he happened to leave the freight train on which he was working near Central bridge, register at a hotel in that village and spend the night there, he remembers nothing from the time the train reached a point near Central bridge until searches, who had been looking for him throughout the night and morning, found him shortly after noon asleep in a room in the Central bridge hotel.

Munson was the middle trainman on a slow freight in charge of Conductor A. P. Hoyt and Engineer H. E. Wilber and L. J. Stinson which left Oneonta northward bound at about 12:30 p. m. Wednesday. When the train reached Delanson at 7:30 a. m. it was discovered that Munson was missing. He had evidently been on the train when it passed Central bridge for the air pressure retainers, always put down at that point, were down.

Search was immediately instituted and continued throughout the night and morning, detectives, signal maintainers section hands and members of train crews combing the roadbed for miles. Soon after noon he was found asleep in the Central bridge hotel. He had registered in two different places on the ledger—between 7:30 and 8:30 p. m., indicating that he could not have lain for long, if at all, by the side of the tracks.

Munson claims that he cannot remember a single feature of the episode. The mind is apparently a blank as to remembering the events of the night. It was at first thought that he might have fallen off the train with a resultant injury to his brain which caused a temporary loss of memory but the absence of any marks on his head or body makes that theory untenable. It looks like memory sleep to Munson and other familiar with the case.

CHALK TALK DELIGHTS "RIDS"

Prof. Sanford Holds Youthful Audiences Spellbound.

As Prof. F. G. Sanford began his lecture Friday evening at 7:30 he declined to give the title of his talk, claiming that the subject of the discussion would appear later. Over eighty-five very-much-alike boys and girls between the ages of eight and fifteen filled the lecture room of the Huntington Memorial library to overflowing. Prof. Sanford drew sketches of pyramids and asked his hearers what country they thought was represented by pyramids. The response was a chorus of "Egypt." He asked the same question regarding sketches of windmills and towering mountain peaks, representing Holland and Switzerland. Then he demonstrated how it is easy to form pictures of various animals by combining circles, curved lines and straight lines. The final drawing was a sketch of an Indian head in colored crayons. In closing Prof. Sanford told the story of "Parson Hooker's Fight with Satan." Then he drew sketches of a ghost story not without a shiver of humor. At the close of the evening's entertainment a chorus of cheers testified the general enjoyment which the lecture afforded the audience. Prof. Sanford is specially gifted to work with boys and girls as well as with older folk, and he is an artist both with tongue and crayon.

DEPOSITORY FOR TRUST FUNDS

Oneonta Building & Loan Association Among 280 such Institutions Made Depositories of Trust Funds by New State Law.

The savings and loan associations all over the state of New York gained a decisive victory with the passage of the Campbell bill amending Section 111 of the Decedent Estate law, and the Draper bill amending Section 21 of the Personal Property law, making savings and loan associations for trust funds.

The passage of this bill will be particularly gratifying to residents of Oneonta and vicinity, many of whom are shareholders in the Oneonta Building and Loan association. The signing of the bill by Governor Miller shows the confidence of the state banking department in its savings and loan associations.

The bill provides that whenever any trust funds are invested in shares or savings and loan associations, organized under the laws of this state, at the time said funds shall come into the possession of any executor, administrator, trustee or other persons entitled to hold the same that the investment may be continued.

The recognition of the shares of savings and loan associations as valid investments for trust funds, which are so carefully guarded by the legislature and courts is entirely in accord with the high financial standing that these associations have assumed.

CONTEST IN FINE SWING.

Oneonta Ice Cream Company Conducts Campaign to Obtain New Recipes. The Oneonta Ice Cream company is conducting a unique contest in which \$500 in gold is offered for the best recipe for serving Purity Ice Cream.

The contest is being conducted through a newspaper campaign of advertising and a system of coupons which are given out by dealers handling this popular brand of ice cream. The purpose of the contest is to obtain new recipes for publication in a booklet seen to be put out by the company. This booklet will be entitled "Fifty different ways of serving Purity Ice Cream," and is designed to be the answer to a popular demand for a recipe pamphlet of this nature.

Although the contest has been in progress but three days several hundred recipes have already been sent in. The contest closes on April 25th and winners will be announced on May 2nd.

ONEONTA THEATRE TODAY.

Last Appearance of a Great Show—Special Picture Attractions.

This is the last opportunity to see the show closing its engagement at the Oneonta theatre. One of the outstanding features is the joyfully enthusiastic and talented sister team of Gene and Minette, who are putting across the apron an exquisitely clever vocal and instrumental number. Fully as good in entertainment value is the comedy impersonation, singing and dancing offering of Arch and Viola. Sharing honors with all the Choral Society Four, with their choice solo and ensemble renditions, has proven one of the applause hits of the bill. Herbert Haskinson in his last Universal special, "The Millionaire" takes care of the picture end of the program with chapter 10 of the story of "The Millionaire" in Africa, and Public News advertises the good measure, Matinee at 2:30; evening at 7 and 9.

See these—At Chalmers six cylinder seven passenger; dandy for family or livery; also a Studebaker six and a light six, Maxwell, \$100.00 to \$250.00, Chevrolet, \$100.00, Stevens Hardware company. Advt. 8-t.

For Sale.

Oakland coupe, 1921, four new cord tires, one spare; fine mechanical condition; newly varnished; looks like new and works like new. A bargain. Wilber Motors corporation. Advt. 11.

A "B. V. D." Correction

We recently advertised in The Star "B. V. D. Cloth." This advertisement was incorrect, as the only genuine "B. V. D." cloth is that from which the genuine "B. V. D." underwear is made, and such cloth is not sold in the piece.

The B. V. D. Company, having complained of this use of its trade-mark, we wish to say that hereafter, so that we may not injure the B. V. D. company and so that the public may receive the right service, we will only refer to the trade-mark "B. V. D." to advertise goods bearing the red woven "B. V. D." label. We have no desire to infringe in any way on the B. V. D. Company's trade-mark rights.

Personal

Mr. and Mrs. W. J. Edinger of 5 Academy street are spending a day or two in Albany.

Mrs. W. F. Howland of 47 Main street is spending a few days with friends in Binghamton.

The Misses Katherine and Helen Roman of this city were in Binghamton yesterday for the day.

Mrs. Ella Kenney and daughter Gertrude left Friday for a few days' visit with friends at Hancock and Deposit.

Mr. and Mrs. Elmer E. Kerr of 15 Luther street left yesterday for a brief sojourn with their son, Harry, in Albany.

Mrs. Florrie Miller of 156 Chestnut street has been called to Liberty by the serious illness of her brother, C. B. Milton.

Mrs. F. D. Miller and Miss Grace Miller are visiting their daughter and sister, Mrs. Charles Aldis, at Pompton Lakes, N. J.

Miss Anna Reynolds and Nettie Crounse left last evening for Scranton, Pa., where they will visit friends over the week-end.

Mrs. J. D. Reynolds left last evening for Binghamton, where she will spend the week-end with her daughter, Mrs. C. E. Burdick.

Mr. and Mrs. Robert Finley and son, Stephen, of Walling boulevard, are spending the week-end with friends in Schenectady.

Miss Ethel A. Thornburn of Binghamton is spending a few days with her parents, Mr. and Mrs. Thomas Thornburn, 60 Miller street.

Mr. and Mrs. Herbert McAdams, who lately had resided in the vicinity of Wilber Lake, left yesterday for Troy, which will hereafter be their home.

Mrs. B. B. Shute of Union, was in Oneonta yesterday on her way to Milford, where she will visit at the home of her brother, Walter R. Place.

Mrs. S. E. McKean and daughter, Eloise, who have been spending the week with Mr. McKean's mother at Round Lake, are expected to return home today.

Rev. and Mrs. George Summerson of Davenport Center were in Oneonta Friday on their way to visit their son, Rev. George G. Summerson of Windsor for a few days.

Miss Marion Milk of Long Eddy, a student at the Oneonta State Normal school, signed a contract last week to teach in Suffern schools next year as a special teacher of English.

Mrs. Mary E. Wrigley of this city left yesterday morning for a visit with daughters residing at New Milford, Pa., and at St. Marie, Idaho. She will be absent for a considerable time.

Mrs. James McKivney and niece, Miss Beatrice Pratt, and Mrs. Guy White, all of Binghamton, were guests yesterday of Mrs. P. Hanlon, 239 Chestnut street. The trip was made by auto.

Miss Irene St. John, who had been visiting her brother, Lynn St. John of West Oneonta during the spring vacation, returned yesterday to Corinth, to resume her duties as teacher in the public schools.

Mrs. N. S. Hurd is in Hamilton, where she went one week ago today, to the bedside of her father, George W. Batenan, who passed away Thursday at 10.40 a. m. The funeral will be held Monday at 2 p. m.

O. M. Shannon, who had been guest for a day or two of his mother-in-law, Mrs. Edward E. Ford, left yesterday for his home in Larchmont. Mrs. Ford accompanied him and will be a guest of her daughter for the next ten days.

Mrs. Eugene Schoemaker and niece, Miss Castella Barber, of Walton, and George H. Ezold of East Glanstonbury, Conn., who had been guests of Mrs. L. W. Osgood, 94 River street, have returned to their respective homes.

Miss Janet Barrett of 24 Cedar street and Miss Mabel Gorton of 81 Elm street are entertaining Miss Elizabeth Knapp and Miss Verna Cook, who as delegates from the Rockport Normal school are attending the annual convention of the Alpha-Delta sorority, now in session in this city.

Mrs. Sarah Kelley of Schenectady, accompanied by her niece, Mrs. H. W. Sheldon of this city, left Friday morning for Lockport, where they will visit the former's son, Supt. Roy B. Kelley of the city schools. Mrs. Sheldon will return in a few days but Mrs. Kelley will remain for a considerable time.

Former Oneonta Boy Honored.
T. Harrison Parkhurst, an Oneonta boy and graduate of our high school, now of Santa Fe, New Mexico, has been named as one of a committee of one hundred from all parts of the United States to organize a National Federation of Outdoor clubs. The big meeting will be held in St. Louis on April 24 to 27 with headquarters at Hotel Statler.

Card of Thanks.
To his class in the First Methodist Episcopal Sunday school for fruit sent during the ten weeks' illness of our son, Claude Judd, from which he is now recovering, and also to neighbors and friends for the sunshine basket and for fruits and flowers, we extend heartfelt thanks.

WEST END NEWS NOTES

Cope Puts in Ice Cream Parlor at Lower Chestnut Street Store—Notes of the Sick and Personal Notes.

A. H. Cope, the West End grocer, has practically doubled the floor space of his store, and in the section which he formerly used for residential purposes has opened an ice cream parlor which no doubt will be popular during the summer months, as Mr. Cope will serve Purdy ice cream. The added space will also provide more room for his grocery stock, which he plans to augment considerably. Mr. Cope will occupy the upstairs apartment with his family.

Trout Fishing Party.
A. C. Loucks of the Plains, with his four sons, spent an enjoyable day trout fishing at Blenheim this week. The party brought home a fine catch and felt well rewarded for making the trip, as well as putting in an enjoyable day.

Former Resident Visits Friends.
Adelbert Parker of Cambridge, Mass., but a former resident of West End and employee of the Nestle Food company was a guest of friends here this week. Mr. Parker plans to move his family to Middletown in the near future.

News of the Sick.
Margaret Cole, the ten-year-old daughter of Mr. and Mrs. Z. Cole of River street, is seriously ill with heart trouble. She is under the care of Dr. J. C. Smith.

Charles Edmunds of Sidney has been called here by the serious illness of his sister, Mrs. George Aylsworth of 348 Chestnut street. The many friends of Mrs. Aylsworth will regret to learn that her condition is unimproved.

Points About People.

Mrs. Emma Allen of 378½ Chestnut street is visiting at the home of Mr. and Mrs. S. J. Scrambling, Treadwell.

Mrs. Stephen Leonard of 300 Chestnut street is spending two weeks in Albany and Schenectady, visiting friends.

Mrs. Wayne Pruyn and daughter, Alice, of Sidney, have returned home after a visit with Mrs. D. J. Kilkenny, Lower Chestnut street.

Miss Mary Broadwell has returned to her duties as teacher at Endicott, after spending the Easter vacation with her sister, Mrs. DeForest Tobey, and other relatives at the Plains.

Mrs. Henry Patterson of Delanson is the guest for a few days of Mrs. R. G. Stetson, 6 Pearl street.

Harold Tillson of Morris and Mrs. R. C. Walker of Northfield, Minn., are guests of Mr. and Mrs. A. H. Tillson of the Plains.

SEE WHAT YOU BUY.

Purchasers Find What They Want at Dauley and Wright's.

Conditions at the various granite quarry centers at the present time are indicative of slow and uncertain production of monumental work.

Thus many people who wish to purchase a memorial and have it erected for Decoration day or even later in the season, greatly appreciate being able to find what they want all finished ready for lettering at 43 and 45 Broad street, Oneonta, N. Y.

They have taken advantage of this opportunity and made their selection from this large assortment of finished marble and granite monuments, markers and headstones.

Following are the names and addresses of those having recently made purchases and who were fully appreciative of being able to see what they were buying:

Frances Greens, Hunter.
James Leach, Tannersville.
Scott W. Keach, Harpursville.
Howard J. Edwards, Hurleyville.
Mrs. Edna B. Parish, Monticello.
Charles F. Lawrence, Hurleyville.
Perry Dumuck, Davenport Center.
Celestia A. Lewis, Otego.
Mrs. Minnie Hummler, Scranton, Pa.
Melissie Eldridge Rockdale.
Mrs. Orville Beeten, Oneonta.
Elva N. Karsten, Montgomery.
M. I. Odell, Langdon.
Mrs. Deborah H. Rogers, Liberty.
A. E. Richardson, Brooklyn.
W. H. Douglass, North Kortright.
Thomas G. Cooper, West Oneonta.
John Hesler, Schenectady.
Walter Scott, Davenport.
Elizabeth Decker, Union Grove.
Leonard Metcalf, West Davenport.
Benjamin Bunt, Tannersville.
Miss Julia Soule, Milford.
H. L. Sulas, Oneonta.
Clement Mardock, Worcester.
O. P. Lamphere, West Kortright.
Johan Huller, Oneonta.
Mrs. Minnie Anderson, W. Oneonta.
Mrs. Irving Dayton, Jefferson.
A. R. Alberti, Oneonta.

A choice lot of work is still on hand. In all cases we absolutely guarantee the best quality of material and finish and assure the most reasonable terms of payment where time may be desired.

MUCH ADO ABOUT NOTHING

Bomb Exploded by Boys on Sidney School House Grounds Proves to be Home Made Fire Cracker.

On Friday morning of last week the janitor of the Sidney grammar school found a piece of fuse and scraps of burned paper near the building and jumping to the conclusion that an attempt had been made to bomb the school he notified the state troopers. The story spread through the village, gaining details as it went along, until it was believed by many that a band of anarchists had been thwarted in the attempt to blow up considerable property.

An investigation was made which revealed the fact that the "bomb" was a home made fire cracker constructed by two small boys. They had found a box containing some old powder and fuses and had made several fire crackers. Happening to have a couple of them in his pocket while at play one of the boys dared the other to let one explode in his hand. They were crossing the school grounds at the time, and the lid lighted the cracker and held it out, but finally he, coming scared and tossing it away from him. It fell on the school steps, going off with a sizzle and making less commotion than a toy cap pistol. The remains were found by the janitor and the wild story started.

The boys were taken before Justice of the Peace Baker, who held a hearing last Thursday evening. The state troopers treat the matter as the joke which it undoubtedly is, but Justice Baker feels disposed to hold the boys pending further investigation.

Mrs. Westcott Suffers Fall.

Mrs. Luzerne Westcott, mother of Mrs. Minnie Lunn of 6 Walnut street, is confined to her room as the result of a fall which she suffered several days ago. Mrs. Westcott has been in ill health for some time, but on the day of the accident she had been feeling better than usual. She returned from a walk and had ascended the stairs to her room, when she fell after reaching the upper floor. The accident is not considered serious but the shock to one of her age and condition was such as to make it necessary for her to keep as quiet as possible for a few days. At last report she was resting comfortably.

West Oneonta Church Notices.

The Most Beautiful Car in America

These Cars Were Used— But Their True Value Remains

Our principal business is selling new motor cars. Necessarily we have acquired a number of used cars which have been traded in.

These used cars were not bartered for with the idea of selling them at a profit. They came to us merely as a part of our regular business—the sale of new cars.

The original owners of the trade-ins have naturally sacrificed something. The mere fact that the cars have been used, ever so slightly, necessitates such a sacrifice. But the real value of the car is still there unimpaired.

Consequently at the price we are able to offer them our used cars are truly a rare investment opportunity. In dollar-for-dollar value they are nothing short of remarkable.

Furthermore, when you buy a used car from us you are dealing with a responsible business concern that gives you all the facts about a car and will back up its statements.

We suggest an immediate examination of the opportunities our used car stock now offers.

We guarantee our used cars to be exactly as represented or money refunded

HOW TO BUILD RADIO FOR LESS THAN \$10.

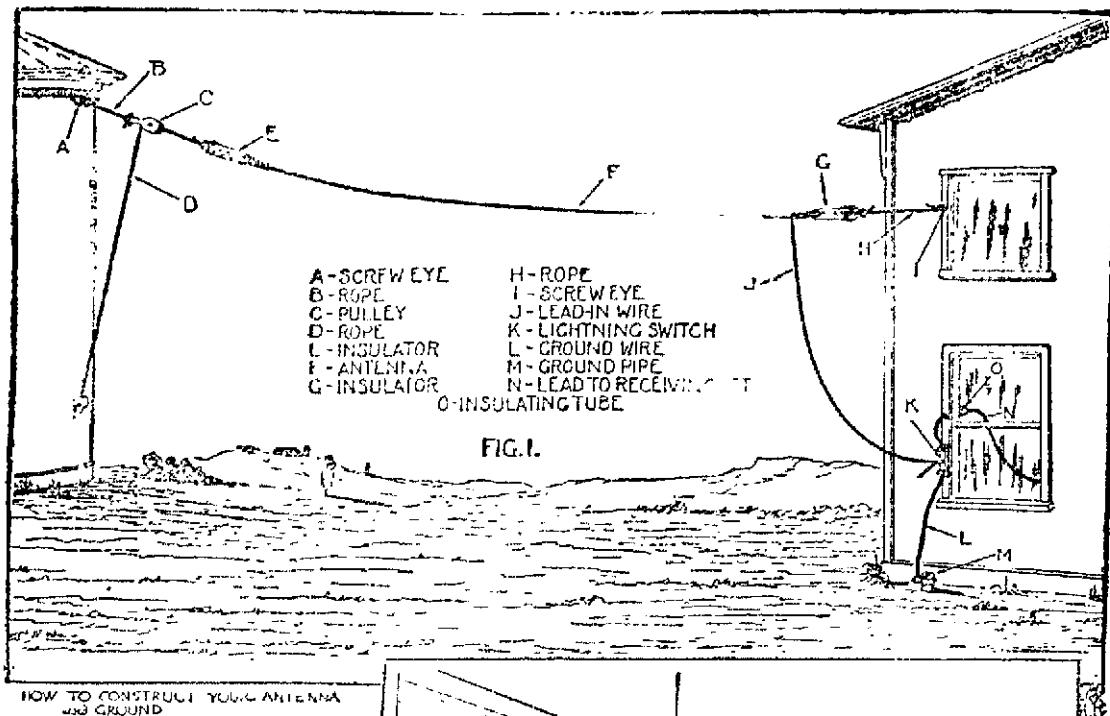

FIG. 1.

HOW TO CONSTRUCT YOUR ANTENNA AND GROUND

The construction of efficient, yet very inexpensive radio receiving equipment is described in a series of Department of Commerce bulletins, the first of which, dealing with the erection of the antenna, has just been issued by the Bureau of Standards. The instructions will be found well suited for receiving the daily musical programs broadcast from the more powerful stations; yet the total cost, including antenna equipment and instruments, can be kept below \$10.

The five essential parts of the station are the antenna, lightning switch, ground connections, receiving set and phone. The receiving signals come into the receiving set through the antenna and ground connection. The signals are converted into an electrical current in the receiving set, and the sound is produced in the phone. Either one telephone receiver or a pair, worn on the head of the listener, is used.

The lightning set protects the receiving set from damage by lightning. It connects the antenna directly to ground when the receiving station is not in use. When the antenna and connection to the ground are properly made and the lightning switch is closed the antenna acts as a lightning rod and is a protection to the building.

The principal part of the station is the receiving set. In the set described herein it is subdivided into two parts, the tuner and the detector, and in more complicated sets still other elements are added.

The antenna is simply a wire suspended between two elevated points. The antenna should not be less than thirty feet above the ground, and its length should be about seventy-five feet. (See Fig. 1.) This figure indicates a horizontal antenna, but it is not important that the antenna be strictly horizontal. It is desirable to have the end where the pulley is used as high as possible. The "lead-in" wire, or drop wire, from the antenna should run as directly as possible to the lightning switch.

If the position of the adjoining building or trees is such that the distance between them is greater than about eighty-five feet, the antenna can still be held to a seventy-five foot distance between the insulators by increasing the length of the piece of rope (D), to which the far end of the antenna is attached. The rope (H) tying the antenna insulator to the house should not be lengthened to overcome this difficulty, because by so doing the antenna "lead-in" or drop wire (J), would be lengthened.

The parts will be mentioned here by reference to the letters appearing in Figures 1 and 2.

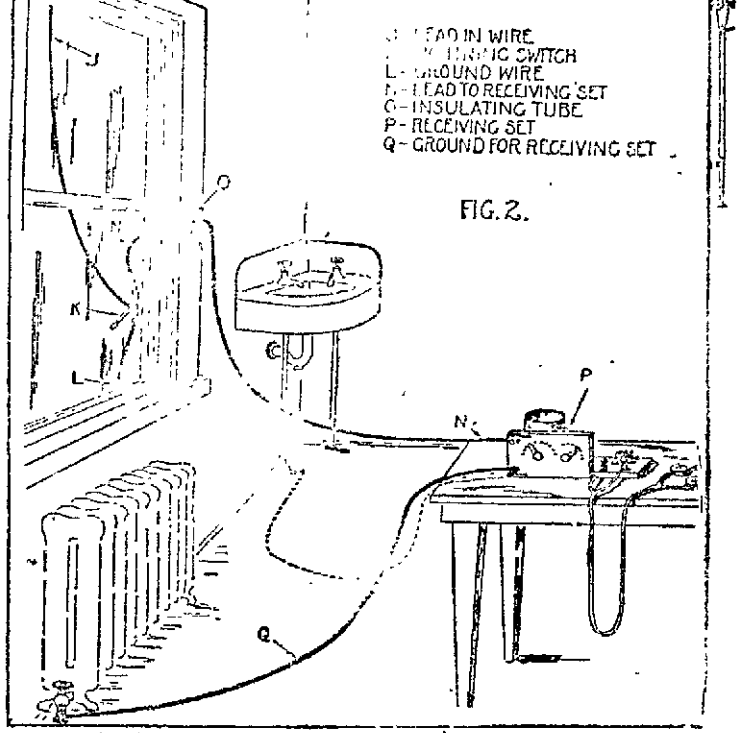

A and I are screw eyes, sufficiently strong to anchor the antenna at the ends.

B and H are pieces of rope, one-quarter or three-eighths inch in diameter, long enough to allow the antenna to swing clear of the two supports.

D is a piece of one-quarter or three-eighths inch rope, rather long to make the distance between B and G about seventy-five feet.

C is a simple block pulley which may be used if readily available. The pulley should not allow the rope to catch.

E and G are two insulators, which may be constructed of any dry hard wood of sufficient strength to withstand the strain of the antenna; blocks about 7x10 inches will serve. The holes should be drilled, as shown in Fig. 1, sufficiently far apart to allow the antenna to swing clear of the two supports.

THE LEAD-IN AND ARRANGEMENT OF SET

clearly far from the ends to give proper strength. If wood is used, the insulators should be boiled in paraffin. If porcelain wiring cleats are available, they may be substituted for the wood insulators. Regular antenna insulators are available on the market, but the two improved types mentioned will be satisfactory for an amateur receiving antenna.

F is the antenna, about seventy-five feet long, between the insulators E and G. The wire may be No. 14 or 16 copper wire, either bare or insulated. The end of the antenna further from the receiving set may be secured to the insulator (E) by any satisfactory method, but care should be taken not to kink the wire. Draw the other end of the antenna wire through the insulator (G) to a point where the two insulators are separated by about seventy-five feet and twist the insulator (G) so as to form an anchor, as shown in Fig. 1. The remainder of the antenna wire (J), which now constitutes the "lead-in," or drop wire, should be just long enough to reach the lightning switch.

K is the lightning switch. For the purpose of a small antenna this switch may be the ordinary porcelain base, 30-ampere, single pole, double throw battery switch. These switches are ordinarily available having a porcelain base about one or four inches. The "lead-in" wire (J) is attached to this switch at the middle point. The switch blade should always be thrown to the lower clip when the receiving set is not actually being used and to the upper clip when it is desired to receive signals.

L is the ground wire for the lightning switch. The ground wire may be a piece of wire the same size as used in the antenna, and should be of sufficient length to reach from the lower clip of the lightning switch (K) to the clamp on the ground rod (M).

M is a piece of iron pipe or rod driven three to six feet into the ground, preferably where the ground is moist, and extending a sufficient distance above the ground so that the ground clamp may be fastened to it. The pipe should be free from rust or paint. Special care should be taken to see that the pipe is clean and bright where the ground clamp is connected.

N is a wire leading from the upper clip of the lightning switch through the porcelain tube (P) to the receiving set, as indicated by the arrow marked "Antenna."

O is a porcelain tube of sufficient length to reach through the window casing or wall. This tube should be mounted in the casing or wall so that it slopes down toward the outside of the building. This is done to keep the rain from following the tube through the wall to the interior.

P is the receiving set. N is the wire leading from the "antenna" winding post of the receiving set through the porcelain tube to the upper clip of the lightning switch. This wire, as well as the wire shown at Q, should be insulated and preferably flexible. Unbraided lamp cord will serve for these two leads.

Q is a flexible wire leading from the receiving set binding post through the window casing or wall to the ground. This wire should be insulated and preferably flexible. Unbraided lamp cord will serve for these two leads.

The distance between the pipes will ordinarily not exceed six feet. Where clay soil is encountered the distance may be three feet, in sandy soil it may be ten feet. Some other material such as brick or the casing of a drilled well, not far from the window, will be a satisfactory "ground."

The phone and certain parts of the apparatus will have to be purchased. The other parts may be obtained at home.

Clever But Conscienceless.

The Soviet delegates are good linguists. Chutchenko speaks French, French and English almost as fluently as Russian and the fact that he reads his speech in French and English shows his command of those languages.

It is idle to deny that several of the Bolshevik leaders are men of excellent ability. Lenin is a master of oratory, a sort of communist Machiavelli, he is unsuppliable and unrepentant. He is responsible for the murder and robbery of thousands of honest people. He must bear the responsibility for the butchery of the Czar Nicholas II and his family. Trotsky is a believer in brute force and a thoroughly wicked man, but his will power is great. Bukharin, Litvinov and Kossol, three of the delegates at the Geneva conference, are clever men.

But to be clever, and at the same time to be wicked, is to be a greater peril to humanity than would be the most honest and sincere had been accompanied by a bad government. Its members are men that have trampled on religion and morality, and it is the duty of all who believe in right and justice to resist their efforts to impose themselves on a world already sufficiently demoralized. (Rochester Post-Express.)

OVER-DEVELOPMENT OF MINES BLAMED FOR BIG WALK-OUT

Average of Only 214 Days of Employment Annually to 600,000 Men in the Industry Nullifies Advantages of Wage Increases

New York, April 21. — The Russell Sage Foundation, in a lengthy report on "The Coal Miners' Insecurity," made public today, holds that no satisfactory agreement of a permanent nature on wage rates can be reached between miners and operators in the bituminous coal industry until steps have been taken to curb what the report describes as "the over-development of many more mines than are required to supply the country's needs." This over-development, the report declares, has resulted in giving an average of only 214 days of employment annually to the 600,000 men employed in the industry, thus nullifying the advantages of wage increases.

In giving out the report, the Foundation states that it investigated the coal situation in connection with its study of human relations in industry, and that it has analyzed data on irregularity of production and employment in bituminous mining extending over a period of 32 years. These data, the report adds, include the most recent statistics on annual earnings and kindred subjects compiled by the United States Geological survey, the National Coal association, the United Mine Workers, the United States Bureau of Labor Statistics, and various state bureaus of mines.

Summary of the Report.

A summary of the report, as prepared by the Russell Sage Foundation says:

"The bituminous coal mines have been open for work on an average of only 214 days a year in the 32 years from 1890 through 1921. If 304 days be regarded as a full working year, the last days of employment and of mine operation have averaged 90 in a year. Only twice, and this during the war, did the miner reach the high mark, when he had as few as 61 idle days in a year. In 11 of these 32 years the loss of working time, and consequently of wages, has averaged 100 days or more for the bituminous miner."

"Of these lost days, 37 per cent, according to the estimates of the United States Geological survey, have been due to the over-development of soft coal mines. Mines now in operation could produce from 700,000,000 to 900,000,000 tons a year, according to various estimates of the President's Bituminous Coal commission and statisticians of the Geological survey, while the country can use approximately 500,000,000 tons.

"This excess of capacity over production brings more men into the industry than are needed and makes employment intermittent and uncertain even when business in general is most prosperous. As the demand for soft coal has increased from a little over 100,000,000 tons to over 500,000,000 tons annually in the past three decades, the number of mines and the number of employees have increased, but the days of employment in a year have shown no appreciable increase, except temporarily during the period of the war. Increased demand and higher prices have resulted in opening new mines, enlarging others, and employing more miners, rather than in giving more regular employment to men in the mines already open."

"Seasonal variations in demand, according to the Geological survey, account for 47 per cent of the lost days in bituminous mining. In the period from 1913 to 1922, the production of coal in the month of greatest output exceeded production in the month of least output by 11,000,000 to 16,000,000 tons or more, and was never less than 6,000,000 tons. Seasonal fluctuations result in keeping more men and more capital in the industry to be equipped for the annual peak of demand than would be needed if work were more evenly distributed throughout the year.

"This excess of numbers employed tends to make employment irregular and uncertain. Nevertheless, even the elimination of reasonable variations would not make employment regular so long as too many mines are operated."

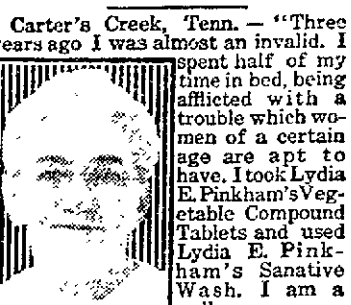

Higher Rates of Pay.

"To offset periods of idleness and lack of earnings, the bituminous miners are forced to seek higher rates of pay. But these higher rates do not give the miner a living wage throughout the year when he has the opportunity to earn wages so few days in the year. In 1920, the United Mine Workers reported to the President's Coal commission that in the year of greatest regularity of employment, 1915, the average annual earnings of the members in the Central Competitive field varied from \$1,354 in Ohio to a maximum of \$1,583 in western Pennsylvania. Had they been able to work 204 days a year, their earnings with those rates might have reached a maximum of \$1,850. Part derived from the United States census indicates that in 1919 the average annual earnings of miners in the same area varied from \$1,062 in Indiana to a maximum of \$1,718 in Pennsylvania. The general average increase of 27 per cent, credited by the Bituminous Coal commission in 1920, would have increased these earnings had employment been more regular than in the past. Even in the comparatively prosperous year of 1920, however, the days of operation of the mines were 9 per cent less than in 1915, while in 1921 the opportunity for employment decreased 32 per cent as compared with 1915. Thus, irregular employment has nullified the advantage of increased rates of pay."

"Estimates of the cost of living prepared by Professor W. F. Ogburn of Columbia University, to be presented by the United Mine workers to the Bituminous Coal commission, showed that in January, 1920, \$1,602 was required for a budget to provide a 'minimum of subsistence' for a family of five. To provide a 'minimum of comfort' for families living in min-

SPENT HALF HER TIME IN BED

Farmer's Wife Tells How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman

Carter's Creek, Tenn. — "Three years ago I was almost an invalid. I spent half of my time in bed, being afflicted with a trouble which women are apt to have. I took Lydia E. Pinkham's Vegetable Compound and used Lydia E. Pinkham's Sensitive Wash. I am a well woman now and have been for two years. I can work as well as any one who is younger and as I am a farmer's wife I have plenty to do. I can cultivate my own garden, raise many chickens and do my own housework. You may publish this letter if I am ready to do anything to help women as I have been so well and happy since my troubles are past." — Mrs. E. T. GALLOWAY, Carter's Creek, Tenn.

Most women find plenty to do. If they are upset with some female ailment and troubled with such symptoms as Mrs. Galloway had, the smallest duty seems a mountain.

If you find it hard to keep up, if you are nervous and irritable, without ambition and out of sorts generally, give the Vegetable Compound a trial.

ing communities required, according to Professor Ogburn's estimate, an annual income of \$2,214. Prices have decreased somewhat since these estimates, but even in the prosperous year of 1918 the miners' average annual earnings were not equal to the estimated 'minimum of subsistence,' except for a comparatively small group of machine miners employed every day that the mines were open.

Conditions of Life.

"Facts about miners' earnings and the suffering which unemployment causes in their families can be understood only if conditions of life in a mining camp are known. In many mining communities the mine is the only place of employment. To find another job in dull periods means moving to another town. Moreover, a miner's family lacks the economic safeguards of life in a community with several varied industries in which other members of the family including wives and daughters, find work. For many coal miners this resource is lacking. The coal industry necessarily becomes responsible for insuring sufficient income to the men in the mines to maintain their families throughout the year.

"Over-development of the industry and lack of opportunity for the miners to earn wages regularly in the bituminous coal industry render precarious and difficult the lives of more than half a million miners and their wives and children. The adjustment of wage rates every two years is sure to produce conflict and bitterness until the equally important question of stability for the industry receives effective attention for operators and public. Greater security in employment must be made the foundation for better human relations in this industry."

"The miners in the soft coal industry might well ask for a guaranteed minimum of employment as the basic need, taking precedence over wage adjustments this year. The necessity for regarding a reasonable minimum of employment as a fixed characteristic of the industry would probably make operators more reluctant to open new mines or to enlarge unduly those already open. To make employment regular is important not only for the standard of living of the miners' families but for the economic conduct of the industry. Capital, as well as men, is wastefully used when money and energy are invested on a scale to produce more coal than is required. The public, the operator and investor and the coal miner have a common interest in making bituminous mining efficient and economical."

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards' produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years, and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No grime is the "keystone" of these little sugar-coated, olive-colored tablets. They ease the bowels and help to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 30c.

MUST BE FINE TO HELP CROPS

Limestone That Talks at Ten-Mesh Screen has little Agricultural Value—Only Mesh Quick.

April 21. — Only that portion of limestone which will pass through a screen containing 10 meshes to the inch has real agricultural value, according to the specialists at the State College of Agriculture.

Direct during the year in which it is applied can be expected only from the portion which will pass a 40-mesh screen, while intermediate sizes will have a good effect for several years after they are applied.

For this reason, the chemical composition, as well as the physical composition, of a limestone must be considered, but little is known of agricultural value can be given limestone which will not pass a 10-mesh screen. Particles larger than this have been found to weather so slowly as to be of little value within reasonable time.

Screenings too coarse.

Lime stone screenings are ordinarily too coarse. They are by-product from the grinding of limestone for certain commercial purposes, where the material is objectionable, and although the vary somewhat in fineness they will usually pass through a one-fourth-inch mesh. According to present information only that part which will pass an 8 to 10 mesh screen is worth putting on land.

Grinding limestone to a degree of fineness so that it will all become available the first year is expensive. In fact it has been found expensive to pay freight on a small proportion of material one-tenth to one-twentieth inch in diameter. The cost of

Why You Should Own a Chevrolet

Because it is the lowest priced completely equipped car in the world.

Because it gives more mileage from gasoline, oil and tires than any other car.

Because the purchase price includes everything you need to make your car completely serviceable — everything from electric starting and lighting systems to legal headlight lenses. Nothing more to buy but the license.

Because it can be operated by any member of your family—safe and easy to drive.

BECAUSE YOU CAN BE SURE OF GOOD SERVICE AND COURTEOUS TREATMENT FROM US.

Because, no matter where you go, you are assured of efficient service. There are more than 4,000 Chevrolet dealers and Service Stations in the United States and Canada.

Because it is better designed and better built than any other car in its class.

Because, improvements and added equipment considered, it is the greatest automobile value that has ever been offered.

Because more than 700,000 Chevrolets have been sold to date.
